

GreenSpring Pro

Remineralizing Reverse Osmosis
Drinking System

MODEL OGF-GS75 · 75 GPD · 3.2 GAL

Spring-Quality Water, Engineered

The GreenSpring Pro pairs high-efficiency reverse osmosis with a built-in permeate pump that cuts water waste by up to 80% while producing consistent, great-tasting water faster. A dedicated remineralization cartridge restores beneficial calcium and lifts pH and alkalinity — so purified water tastes the way nature intended.

Cleaner water and a smaller footprint — without the waste.

Efficiency & Speed

Integrated permeate pump cuts water waste 75–80% and delivers faster, consistent production.

Quality Enhancement

Remineralization cartridge raises pH and alkalinity, adding beneficial calcium back into your water.

Sustainability

Standard-sized, eco-friendly replacement parts lower maintenance cost and reduce landfill waste.

● Ideal for: drinking water · coffee & tea · cooking · ice · produce rinsing & more

Application & Operating Parameters

Water Pressure

40–100 psig (280–690 kPa)

Temperature

40–100 °F (4–38 °C)

pH Range

4–11 (optimal 7.0–7.5)

Maximum TDS

2000 ppm / mg/L

Hardness

Less than 10 gpg (171 mg/L)

Turbidity

<1 NTU

Iron

<0.3 ppm (mg/L)

Manganese

<0.05 ppm (mg/L)

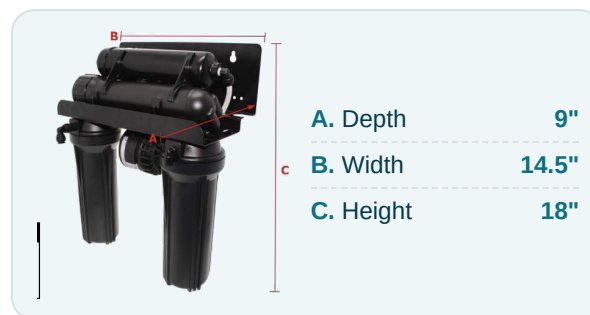

Hydrogen Sulfide

<0.001 ppm (mg/L)

Water Supply

Chlorinated, Chloramines, Non-Chlorinated

Dimensions

Typical Reductions

- Arsenic (As5)
- Lead
- Barium
- Nitrate
- Cadmium
- Radium 226/228
- Chromium (6,3)
- Selenium
- Copper
- TDS
- Fluoride
- Cysts

System Configuration

SYSTEM SKU	TANK	MEMBRANE	SYSTEM DESCRIPTION
OGF-GS75	3.2 gal	75 GPD	High-efficiency RO with 75 GPD membrane, permeate pump, remineralization & 3.2 gallon tank

The best possible water for drinking, beverages, cooking, produce rinsing, and more.

Everyday Uses

Drinking Water

Crisp, great-tasting water on tap for daily hydration.

Coffee & Tea

Low-TDS water lets coffee and tea flavors shine.

Cooking

Pure water for soups, pasta and anything you simmer.

Ice & Produce

Clearer ice cubes and fresh rinses for produce.
